11. Summary					
<p>(A) <u>Mission</u>: To develop and strengthen the Austrian paramilitary program along the following lines: to develop the existing and potential paramilitary assets of 1) a labor union having assets situated throughout Central and Eastern Austria, 2) detached indigenous groups in the Salzburg-Tirol areas, and 3) individual, indigenous assets located throughout Austria; to select and cache-equip suitable operational bases from which these groups may operate during hostilities; to establish an Evasion and Escape line from Eastern to Western Austria with feeder lines from the Czech and Hungarian borders and connecting links to the Italian, Swiss, Liechtenstein and German borders.</p> <p>(B) <u>Plan</u>: To spot and recruit sufficient personnel to build the nucleus and skeletal groups needed to achieve final peacetime development of the objectives as outlined in (A) Mission; to spot and earmark for emergency recruitment those remaining personnel needed to activate the paramilitary program at full strength in the event of hostilities.</p> <p>(C) <u>Summary</u>:</p> <p>(1) <u>Evasion and Escape</u>: Plans are being formulated by the Salzburg Operations Base and the Austrian Headquarters Branch whereby a second, independent E & E nucleus group will be developed in the westernmost section of the main E & E line. The proposed group will form a parallel structure to the present nucleus organization, such as that now under development in the central section of the line, and in wartime may be used either as an original or emergency channel. Since the present organization is located for the most part in or around St. Anton, the E & E terminal point to Italy, Switzerland, Liechtenstein and Germany, and during wartime most probably will be obliged by necessity to restrict their operational activity to this area alone, it is believed that development of this similar, compartmented group may be necessary to the successful operation of the complete E & E line through Austria.</p> <p>(2) <u>Caching</u>: Shipment from Headquarters of material destined for use in this summer's caching program has been accomplished in accordance with plans and schedules formulated several months ago; a detailed report from the Field Mission concerning the cargo arrival, progress of the caching program, etc. is expected by Headquarters during the next reporting period.</p> <p>(D) <u>Effectiveness</u>: No change.</p> <p>(E) <u>Methods and Standards</u>: No change.</p> <p>(F) <u>PP Assets</u>: Not applicable.</p>
